## SUMMARY

---

Aspiring Python Developer with hands-on experience in AI, data science, and automation. Skilled in Python, machine learning, and data visualization. Passionate about building intelligent systems and solving real-world problems through code.

## TECHNICAL SKILLS

---

**Languages:** Python, Java (Basic), SQL

**Libraries & Tools:** Pandas, NumPy, Scikit-learn, Power BI, Excel, GitHub

**Concepts:** Machine Learning, Data Analysis, Predictive Modeling, REST APIs

**Soft Skills:** Problem Solving, Leadership, Communication **Languages Known:** Tamil, English

## PROJECTS

---

### Kidney Disease Prediction

Built a predictive model using patient data to classify kidney disease stages

### Class Attendance Management System

Developed a GUI tool to automate attendance tracking with CSV export and summary reports

### Multiple Disease Prediction with XGBoost and SHAP

Built a multi-class classification model to predict diseases using patient data

## EXPERIENCE

---

### Data Science Intern

May 2023 – Jul 2023

*Fantasy Solution*

- Cleaned and analyzed client datasets to extract actionable insights
- Built predictive models and collaborated with team on deployment

## EDUCATION

---

### Gnanamani College of Technology

*B.Tech in Artificial Intelligence and Data Science*

Namakkal, TN

2022 – 2026
